

CLUB 60A - CLUB 150A - CLUB 300A

Club series epitomise the qualities of every SR sound system. Compact and lightweight, yet capable of producing high definition performance that is simply breathtaking. Club series are available in 3 active versions of 60W, 150W and 300W RMS respectively and

are particularly favoured by keyboard performers and other musicians who require superior balance, sonic detail and an extremely wide frequency response. All models are available in a variety of finishes and a range of accessories are also available.

CLUB 60A
