

SW180A - SW350A - SW500A - SW1400A

SW series active subwoofers are designed to provide powerful yet natural sounding low end performance that can perfectly compliment SR Club or Live series speaker systems. With their superb performance and compact size the SW series are also

a favourite with performers who wish to enhance their existing speaker system with a more powerful and musical low end. All models feature mono or stereo operation and provide both full range or mid / high outputs depending on your application

SW180A

Frequency response 40Hz-150Hz
Sensitivity (1W-1m) 94 db
SPL max 116 db
Crossover Electronic: fixed 120Hz cut
Woofer 10"
Max Power Out 180 W RMS
Connections Input Right/Left XLR+Jack
Connections Output Right/Left XLR+Jack
Controls Volume, Ground Lift switch, ST/Mono switch
Box Bass reflex
Construction Plywood
Weight Kg 17
Dimensions (WxDxH) 32x41x36 cm

SW350A

Frequency response 40Hz-150Hz
Sensitivity (1W-1m) 99 db
SPL max 123 db
Crossover Electronic: fixed 120Hz cut
Woofer 12"
Max Power Out 350 W RMS
Connections Input Right/Left XLR
Connections Output Right/Left XLR
Controls Volume, Ground Lift switch, ST/Mono switch
Box Bass reflex
Construction Plywood
Weight Kg 25
Dimensions (WxDxH) 42x46x46 cm

SW500A

Frequency response 35Hz-150Hz
Sensitivity (1W-1m) 101db
SPL max 127db
Crossover Electronic: fixed 120Hz cut
Woofer 15"
Max Power Out 500 W RMS
Connections Input Right/Left XLR
Connections Output Right/Left XLR
Controls Volume, Ground Lift switch, ST/Mono switch
Box Bass reflex
Construction Plywood
Weight Kg 34
Dimensions (WxDxH) 47x51x52 cm

SW1400A

Frequency response 25Hz-120Hz
Sensitivity (1W-1m) 101db
SPL max 132db
Crossover Electronic: fixed 100Hz cut
Woofer 21"
Max Power Out 1400 W RMS ICEpower®
Connections Input Right/Left XLR
Connections Output Right/Left XLR
Controls Volume, Ground Lift switch, ST/Mono switch
Box Bass reflex
Construction Plywood
Weight Kg 58
Dimensions (WxDxH) 60x66x64 cm
