

MON-X - MON-S - MON-B

The MON series of monitors brings high definition audio performance and ultra-compact size in a cabinet that can act in both wedge and side-fill applications with equal efficiency.

The MON-X and MON-B are both active models whilst the MON-S is a passive

version which can be used in conjunction with the MON-X or external power amplifiers. The MON-B is the smallest model in the range and can be used in a myriad of situations due to its miniscule dimensions. All MON series models feature speaker stand adaptors.

MON-X

Frequency response 40Hz-20KHz
Sensitivity (1W-1m) 94db
SPL max 118 db
Crossover Passive -18db/octave
System-format 2-way
Woofer 8" (SICA – Italy)
Horn Compression Tweeter
Coverage angle (WxH) 110°x110°
Max Power Out 180 W RMS
Active Output Power 180 W 8 ohm
Connections XLR (MIC In); Jack 6,3 (Line IN); XLR (Line IN)
XLR (Direct Out); Speakon (Active Out)
Controls MIC Vol, LINE Vol, HIGH, LOW,
Ground Lift Switch
Box Two-way bass reflex
Construction Plywood
Weight Kg 10
Dimensions (WxDxH) 26x27,5x37 cm (10x11x14)

MON-S

Frequency response 40Hz-20KHz
Sensitivity (1W-1m) 94db
SPL max 118 db
Crossover Passive -18db/octave
System-format 2-way
Woofer 8" (SICA – Italy)
Horn Compression Tweeter
Coverage angle (WxH) 110°x110°
Max Power Out 180 W RMS
Active Output Power 180 W 8 ohm
Connections Speakon

MON-B

Frequency response 50Hz-20KHz
Sensitivity (1W-1m) 90db
SPL max 110 db
Crossover Passive -18db/octave
System-format 2-way
woofer 6" (SICA – Italy)
horn Compression Tweeter
Coverage angle (WxH) 110°x110°
Max Power Out bi-amp 80+20 W RMS
Connections F XLR (MIC In); Combo (Line IN); XLR (Direct Out)
Controls MIC Vol, LINE Vol, HIGH, LOW,
Ground Lift Switch
Box Two-way bass reflex
Construction Plywood
Weight Kg 7
